

Entrusted Items Concerning Preparation of Draft Proposals for JIS

Newly Established

Divisional Council	T i t l e	Assigned Organization	Contact
Medical	Medical devices software – Software life cycle processes	Japan Electronics & Information Technology Industries Association	B
Medical	Medical electrical equipment – Particular requirements for the basic safety and essential performance of pulse oximeter equipment for	Japan Electronics & Information Technology Industries Association	B
Medical	Medical electrical equipment – Particular requirements for the basic safety and essential performance of respiratory gas monitors	Japan Electronics & Information Technology Industries Association	B
Electronics	Fixed capacitors for use in electronic equipment – Part 24: Sectional specification – Surface mount fixed tantalum electrolytic capacitors with conductive polymer solid electrolyte	Japan Electronics & Information Technology Industries Association	C
Electronics	Fixed capacitors for use in electronic equipment – Part 24-1: Blank detail specification – Surface mount fixed tantalum electrolytic capacitors with conductive polymer solid electrolyte – Assessment level	Japan Electronics & Information Technology Industries Association	C
Electronics	Fixed capacitors for use in electronic equipment – Part 25: Sectional specification – Surface mount fixed aluminium electrolytic capacitors with conductive polymer solid electrolyte	Japan Electronics & Information Technology Industries Association	C
Electronics	Fixed capacitors for use in electronic equipment – Part 25-1: Blank detail specification – Surface mount fixed aluminium electrolytic capacitors with conductive polymer solid electrolyte – Assessment level	Japan Electronics & Information Technology Industries Association	C
Electronics	Fixed electric double-layer capacitors for use in electric equipment – Part 1: Generic specification	Japan Electronics & Information Technology Industries Association	C
Electronics	Fixed electric double-layer capacitors for use in electric equipment – Part 2: Sectional specification – Electric double-layer capacitors for power application	Japan Electronics & Information Technology Industries Association	C
Electronics	Fixed electric double-layer capacitors for use in electric equipment – Part 2-1: Blank detail specification – Electric double-layer capacitors for power application – Assessment level EZ	Japan Electronics & Information Technology Industries Association	C
Electronics	Environmental testing – Part 2: Tests – Test Te: Solderability testing of electric components for surface mount technology by the wetting balance method	Japan Electronics & Information Technology Industries Association	C
Electronics	Environmental testing – Part 2-82: Tests – Test Tx: Whisker test methods for electric and electric components	Japan Electronics & Information Technology Industries Association	C

Electronics	Audio and audiovisual equipment – Digital audio parts – Basic measurement methods of audio characteristics – Part 1: General	National Institute of Technology and Evaluation	C
Electronics	Audio and audiovisual equipment – Digital audio parts – Basic measurement methods of audio characteristics – Part 2: Consumer Use	National Institute of Technology and Evaluation	C
Electronics	Audio and audiovisual equipment – Digital audio parts – Basic measurement methods of audio characteristics – Part 4: Personal	National Institute of Technology and Evaluation	C
