

Entrusted Items Concerning Preparation of Draft Proposals for JIS

Newly Established

Divisional Council	T i t l e	Assigned Organization	Contact
Environment and Recycling Policy	Methods for determination of boron compounds in flue gas	Japan Environmental Management Association for Industry	B
Environment and Recycling Policy	Testing method for perfluorooctanesulfonate(PFOS) and perfluorooctanate(PFOS) in industrial water and wastewater	Japan Environmental Management Association for Industry	B
Environment and Recycling Policy	Methods for determination of PM10/2.5 mass concentration in flue gas	Japan Environmental Management Association for Industry	B
Electrical	Fuel cell technologies - Part 6-300: Micro fuel cell power systems - Fuel cartridge interchangeability	The Japan Electrical Manufacturers' Association	B
Electrical	Wind turbines - Part 3: Design requirements for offshore wind turbines	The Japan Electrical Manufacturers' Association	B
Electrical	Photovoltaic devices. Part 3: Measurement principles for terrestrial photovoltaic (PV) solar devices with reference spectral irradiance data	The Japan Electrical Manufacturers' Association	B
